

# TELESTO

*AUTOMATED METER READING ONLINE SERVICE*

 **asaia**

*SIMPLIFY YOUR ENERGY DATA MANAGEMENT*

## THE OUTSOURCING OF YOUR METER DATA MANAGEMENT

**T**elesto simplifies your life by taking care of all your AMR tasks. It hides the complexity of the AMR process and allows variable costs during ramp up.

Telesto is based on Saturne, our cutting edge Energy Information Management platform, thus insuring high flexibility and reliability.

Telesto provides a complete range of services :

- Reading and monitoring remote meters
- Transforming meter data into information (load profile comprehensive management and monitoring)
- Distributing consumption information by email or FTP
- Publishing consumption Information on the Internet
- Triggering alarms

### IMMEDIATE IMPLEMENTATION

Our Saturne platform is managed by specialists.  
Our Telesto service can only begin a few hours after receiving meter identification codes.

### NO INVESTMENT

Our Telesto service avoids you investing in hardware, software or human resources.  
Performance is invoiced monthly according to the number of load profiles.

### FOOLPROOF RELIABILITY

Saturne is highly secured and reliable. A call-out service and a remote control system also ensure its efficient running during weekends and bank holidays.

### PERMANENT AVAILABILITY

You can receive your meter data by email or FTP at agreed times and dates.  
They are also permanently available on the Internet through secured access.  
You can ask for an on-demand meter reading, or run it instantly yourself on the Internet.

### GUARANTEED SECURITY

Outsourcing your meter data archiving is an additional guarantee of permanence.  
We answer for data full privacy : restricted access, http links, etc.

**WITH TELESTO, YOUR ELECTRONIC METER DATA IS AVAILABLE 7 DAYS/WEEK, 24/24H.**

### SERVICES

- Automated Meter Reading
- Load curve validation and correction
- Load curve aggregation
- Consumption monitoring and analysis
- AMR Information distribution
- Reporting
- Alarms

### REMOTE METER READING

You decide the frequency of meter data communication, we undertake the remote meter reading accordingly.

### DATA INTEGRITY

You care about data quality:

- Load curves can be corrected according to local Energy Regulator recommendations.
- Correction tracks are highlighted.

### AGGREGATION CURVES CALCULATION

You want to aggregate your multi-site meter data.

We synchronize curves depending on your selection criteria providing details on each curve composing the aggregation.

### CURVE AND CONSUMPTION DISTRIBUTION

Metering data is available at fixed times or on demand. Several communication modes are possible:

- *VPN* : secured channel allowing users to send files between two IP addresses.
- *FTP* : File Transfer Protocol.
- *Email* : data files arrive to your email address.
- *Internet* : files are published on the Internet and available with authorisation.

File format can be adapted to your needs (XML, text, binary...).

### SECURITY AND PRIVACY

Metering data is managed by Saturne, a highly secured platform and with restricted access.

ASAIS DEVELOPS AND SELLS **AMR/AMM** PLATFORMS FOR LARGE SCALE MULTI-VENDOR, MULTI-ENERGY AND MULTI-SERVICE SMART METERING INFRASTRUCTURES.

KEEPING IN MIND TODAY'S HIGHLY COMPETITIVE MARKET, ASAIS' PRODUCTS AND SERVICES HELP YOU STAY AHEAD AND CONSIDERABLY REDUCE RISKS ASSOCIATED WITH CHANGING LEGISLATION AND TECHNOLOGY.

ASAIS WAS FOUNDED AS AN INDEPENDENT COMPANY IN **1985** AND HAS ESTABLISHED ITS STRENGTH AND PERFORMANCE THROUGHOUT CLOSE COLLABORATION WITH THE METER MANUFACTURERS.
